NEWS BRIEF

St. Peters facility celebrates impressive EHS record with two new awards

SUEZ Water Technologies & Solutions' Mobile Water Service Center in St. Peters, Missouri, has recently received two awards for excellence in environment, health, and safety (EHS), maintaining an impressive streak in this arena.

As the service center celebrates its 10-year anniversary of accreditation in the nation's leading workplace safety program, OSHA's Voluntary Participation Program (VPP), it has been named a Region VII VPPPA "Star Among Stars" for the ninth time.

Additionally, the plant received the Missouri Water Environment Association's Year Over Year Wastewater Compliance Excellence Gold award for its performance in 2018. SUEZ has earned this award for industrial pre-treatment excellence three years in a row.

"These awards demonstrate who we are as a company, our commitment to the health and safety of our workers, and the environmental protection of our community," said Jim Spruill, St. Peter's plant manager at SUEZ – Water Technologies & Solutions. "I want to thank all of our employees for their part in maintaining a safe and compliant workplace."

The St. Peters [Mobile Water Service Center](#) supports customers with a range of water treatment solutions including deionization, resin regeneration and filtration for raw water, process/make-up water and wastewater.
